### A WAR ON THE CHILDREN OF GAZA LEAFLET

#### A WAR ON THE CHILDREN OF GAZA

- This horrific war has felt different. This war will be remembered for the disproportionate number of child victims and a Western political class that went out if its way to justify the killing of these children.
- In just 7 weeks, 6000 children were killed and over 1500 were missing; buried under rubble and presumed dead.
- The current war on Gaza is being called the second 'Nakba' because 1.7 million Palestinians have had to flee from their homes to escape indiscriminate bombing.
- The 1948 Nakba led to 750,000 native Palestinians being driven from their land, with no right to return. The 2023 Nakba feels like an attempt to extinguish the next generation altogether, denying them their right to life.
